RECOMMENDED RESOURCE

We benefit in some manner when you purchase anything referenced here.

Are you interested in increasing your affiliate marketing income?

Please consider joining the **free** DAB affiliate program. They offer hundreds of quality products in the "make money online" niche.

DAB uses the Nanacast platform to track traffic sent by affiliates. This platform offers many advantages:

If you send traffic to check out one offer, they're tagged with your affiliate ID for **any** and **all** products they purchase - the product your recommended, upsells, downsells, backend sales, even future products that you have not yet promoted. So, you could be getting sales for a long time with one referral, even sales of recurring products.

Even if you send traffic to pick up a **free** report, that tags **you** for affiliate commissions in the future. Nanacast will not allow an affiliate to purchase through his or her own link, so YOUR link cannot be hijacked.

DAB pays the full commission amount directly to your PayPal account. No fees are withheld.

DAB attempts to get your referrals to not only join the DAB email list, but also to join as an affiliate. Now normally that sounds like a bad deal for you, but consider this. When DAB makes a recommendation to purchase a new product, and your customer buys, **you** get a commission.

So, you don't necessarily need to email your customers about DAB's new products. Even if they become an affiliate and they buy a new product, Nanacast does not allow an affiliate to buy through their own link, so you are still tagged and will receive commissions for their purchases.

Bottom line is, DAB is working on your behalf. If you help DAB build **their** lists, they will help you build **your** income.

Click the link **below** to go to the DAB sign-up page. You will be automatically and immediately approved.
